BMT 2018 - 52ND ANNUAL VDE | DBGMT-CONFERENCE

26.09.2018, 09.00 Uhr – 28.09.2018, 20.00 Uhr | Aachen

The board of directors of the Helmholtz Institute of the RWTH Aachen University will be the host of the BMT 2018, the 52th annual conference of

innovation for a better health care.

The conference topics will cover the entire field of Biomedical Engineering, as it is represented by the plurality of DGBMT expert committees. Special emphasis is put on the following topics:

- Biohybrid Medical Systems
- Cyber Medical Systems
- Patient Specific Model Guided Therapy
- Imaging
- Clinical Translation

Physicians, engineers and natural scientists are welcome to conduct an intensive dialogue on the exciting scientific achievements and to discover the best ways for translation from science to practice. Interdisciplinary communication, socializing and brainstorming are long standing traditions of these conferences. [More information](#)
